	APPROVAL OF STATE ENGINEER			
This permit to change the point of diversion and place of use of a portion of the waters of an underground source as heretofore granted under Permit 35545 is issued subject to the terms and conditions imposed in said Permit 35545 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.  The total combined duty of water under Permits 45834 through 45855, inclusive, shall not exceed 25,000 acre-feet annually.  The issuance of this permit is subject to the terms and conditions of the State Engineer's ruling issued August 17, 1983.  This permit is issued as a preferred use of the limited resource as authorized by NRS 534.120 (2) and set forth in the State Engineer's Order No. 821 issued on August 23, 1983.				
The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not				
	cceed 3.0 cubic feet per second. but			
acre	e-feet annually.	•		
Worl	k must be prosecuted with reasonable diligence and be completed on or before	September 19, 1985		
Proo	f of completion of work shall be filed before	October 19, 1985		
Appl	lication of water to beneficial use shall be made on or before	September 19, 1990		
Proo	f of the application of water to beneficial use shall be filed on or before	October 19, 1990		
Map	in support of proof of beneficial use shall be filed on or before
